

# Petition in support of the Religious Freedom Peace Tax Fund Bill

## To our National, State, and City Representatives:

Thousands of Americans have deeply held religious and moral beliefs that prevent them from participating in war in any form, including paying for it. However, they are currently forced into an unacceptable dilemma: either violate their conscience and pay taxes for war, or refuse to pay war taxes and risk fines, seizure of assets, and even jail. They seek to pay their full taxes, but cannot pay them in good conscience.

**The Religious Freedom Peace Tax Fund Bill in the U.S. Congress would allow persons conscientiously opposed to participation in war to have their taxes spent for non-military purposes only. I support this effort to affirm the freedom of conscience regarding participation in war.** The Bill number in the 108th U.S. Congress is HR 2037. Resolution 367 in the NYC Council supports HR 2037. To those in who support this effort, we convey our sincere thanks.
